

PRE-NUPTIAL AGREEMENTS

A Pre-Nuptial Agreement is a Minute of Agreement which a couple can enter into before they enter into a marriage or civil partnership.

Such Agreements have the benefit of protecting someone's assets which were accumulated before the marriage or civil partnership and can regulate financial and property matters in the event of the breakdown of the relationship.

The law surrounding Pre-Nuptial Agreements has not been fully tested by the courts however they are becoming socially acceptable and more and more popular where people want to protect their pre-established wealth and to avoid potential conflict in the future.

At Miller Samuel we provide expert advice in negotiating such contracts. For more information please contact a member of our Private Client Department on 0141 221 1919.
